

BODY BEAUTIFUL STYLIST BUSINESS CARDS

Now that you are a Certified Body Beautiful Stylist, you can order your personalized business cards. Just complete and fax the order form on **page 3**. Please call or email with any questions.

BUSINESS CARD FRONT DESIGN OPTIONS:

The only difference between designs #2, 3 and 4 is the name and title color. Design #2 shows a 2-line address example, which may be needed if address info is too long to fit on one line.

BUSINESS CARD BACK DESIGN OPTIONS:

If you wish to pay by check, you can mail payment for the final amount to:

Body Beautiful / 212 3rd Ave. / Venice, CA 90291

TO BE COMPLETED BY BODY BEAUTIFUL: Order #: Business card total: \$ Shipping + handling: \$ Sales tax: \$ Subtotal: \$ Total Due: \$ Payment processed Client receipt sent

About Paper Types & Inks

All cards are standard 2"x3.5" Business Card size. There are 3 finishes to choose from: 4/1, 4/4, and Satin. All are printed on 14 point stock.

4/1 (Four over One)

Only applicable for business cards with back design E or F.

Full-color printing with a gloss coating on the front, one-color (black-only) printing with no coating on back (the uncoated back is the easiest to write on if you want that option).

Four over one 4/1 (pronounced Four over One) refers to the number of inks that are applied to each side of the card when it is printed. In this case, four colored inks are applied to one side of the card, and one color (Black only, no Pantone spot colors) is applied to the reverse.

The inks used are Cyan, Magenta, Yellow and Black (often referred to as CMYK). When applied in varying percentages these inks are able to accurately reproduce most colors. This is known as Four-Color Process Printing.

4/1 Pricing

Qty	Cost*
100	\$115
250	\$120
500	\$125
1M	\$190
2M	\$215
3M	\$265

* Shipping is additional.

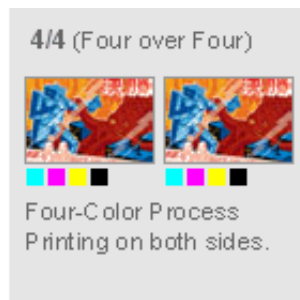

4/4 (Four over Four)

Applicable for all card designs.

Full-color printing with a gloss coating on both sides.

Four over four 4/4 (pronounced Four over Four) refers to the number of inks that are applied to each side of the card when it is printed. In this case, four colors of ink are applied to each side of the card.

The inks used are Cyan, Magenta, Yellow and Black (often referred to as CMYK). When applied in varying percentages these inks are able to accurately reproduce most colors. This is known as Four-Color Process Printing.

4/4 Pricing

250	\$155
500	\$160
1M	\$220
2M	\$245
3M	\$295

* Shipping is additional.

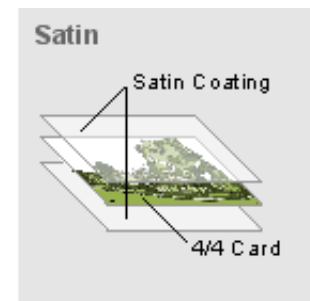

Satin

Applicable for all card designs.

Full-color printing on both sides with a Satin coating. Satin is a durable plastic coating with a matte feel.

Satin is a special plastic coating applied to our 4/4 cards after printing.

Satin is smooth with a slight matte finish which is very pleasing to the touch. The satin coating also makes the cards durable and more resistant to water and tearing.

Satin Pricing

Qty	Cost*
100	\$160
250	\$165
500	\$170
1M	\$230
